

NEW CLERK RECEIVING CHECKLIST

Guidelines for efficient package receipt

Sort by PO Number

Identify and group boxes by Purchase Order number.

Generate Documentation

Look up PO numbers, print work orders and box labels before starting.

Stage for Production

Neatly stack items and ensure proper labeling for the production team.

Pre-Receiving Preparation

Gather necessary tools like a highlighter, box cutter, pen, and clipboard.

Prioritize Urgent Shipments

Focus on urgent orders before handling less critical shipments.

Check In and Verify

Unbox and sort items by style and color, and match them against work orders.
